## Linear Algebraic Groups (Graduate Texts in Mathematics) Armand Borel

This revised, enlarged edition of Linear Algebraic Groups (1969) starts by presenting foundational material on algebraic groups, Lie algebras, transformation spaces, and quotient spaces. It then turns to solvable groups, general properties of linear algebraic groups, and Chevalley's structure theory of reductive groups over algebraically closed groundfields. It closes with a focus on rationality questions over non-algebraically closed fields.

### **From reader reviews:**

#### **Larry Parker:**

Hey guys, do you want to find a new book to study? Maybe the book with the headline Linear Algebraic Groups (Graduate Texts in Mathematics) suitable to you? The actual book was written by a popular writer in this era. The book entitled Linear Algebraic Groups (Graduate Texts in Mathematics) is the main one of several books in which everyone reads now. This particular book was inspired a lot of people in the world. When you read this review you will enter the new age that you ever know ahead of. The author explained their thought in the simple way, therefore all of people can easily know the core of this guide. This book will give you a wide range of information about this world now. To help you to see the represented of the world on this book.

#### **Mildred Lyons:**

Don't be worried for anyone who is afraid that this book may fill the space in your house, you will get it in e-book way, more simple and reachable. This Linear Algebraic Groups (Graduate Texts in Mathematics) can give you a lot of friends because by you taking a look at this one book you have a factor that they don't and make an individual more like an interesting person. That book can be one of a step for you to get success. This review offers you information that perhaps your friend doesn't learn, by knowing more than additional make you to be great folks. So, why hesitate? Let us have Linear Algebraic Groups (Graduate Texts in Mathematics).

#### **Virginia Comer:**

Do you like reading a book? Confused to looking for your favorite book? Or your book had been rare? Why so many problems for the book? But any kind of people feel that they enjoy regarding reading. Some people like looking at, not only science books but additionally novels and Linear Algebraic Groups (Graduate Texts in Mathematics) or maybe other sources were given information for you. After you know how the truly amazing a book, you feel would like to read more and more. Science guides were created for teachers or students especially. Those publications are helping them to put their knowledge. In other cases, besides science books, any other book like Linear Algebraic Groups (Graduate Texts in Mathematics) to make your spare time much more colorful. Many types of books like this.

#### **Alicia Romero:**

What is your hobby? Have you heard this question when you got college students? We believe that that issue was given by teachers with their students. Many kinds of hobbies, all people have different hobbies. So you know that little person such as reading or as reading become their hobby. You need to understand that reading is very important along with books as to be the factor. Books are important things to increase your knowledge, except your current teacher or lecturer. You see good news or updates concerning something by books. Amounts of types of books that you can choose to use as your object. One of them are these claims Linear

Algebraic Groups (Graduate Texts in Mathematics).
