Terry Chimes

The Strange Case of Dr Terry and Mr Chimes Terry Chimes

From his early days as a founding member of The Clash to his current success as a chiropractor and acupuncturist, the completely entertaining wisdom and life story of Terry Chimes

An autobiography with a difference, this book covers the life of a man who appears to many to be a dual personality—surely the crazy muso bashing the drums in a succession of punk and heavy metal rock bands couldn't possibly be the same person as the one offering kind words of wisdom and compassion to the sick? Yet that is the unusual transition made by the author. Terry Chimes shares his story, from his days as the original drummer of The Clash (he left the band in 1977 only to be asked back in 1982), on to a succession of punk and heavy metal bands, to becoming a highly successful chiropractor. Told with humor and empathy this memoir covers his childhood, his entry into the world of rock and roll, his early years with The Clash and why he left the band, and the spiritual insights that have guided his life. The book includes a wealth of true stories ranging from wild antics on the road with a touring rock band to the challenges of carving out an entirely new career.
