1997 The Encyclopedia of Education Information

1997 The Encyclopedia of Education Information

This is the second edition of "the Encyclopedia of education information." We have updated listings, added new information, and expanded our listings to make this second edition a strong follow-up to the well-received first edition. "The Encyclopedia of Education Information" was designed to provide education professional with immediate access to the information that used to take hours of research time and multiple resources to find. This one easy-to-use volume puts at the educators' fingertips facts, phones numbers, and contact names that open up career and teaching opportunities that might go undiscovered otherwise. This comprehensive one-of-a-kind resource provides easy access to: the latest information on education magazines and newsletters as well as contacts for article publication; a wealth of information on over 1500 schools overseas for teaching abroad; state-by-state information on enrollment and school expenditure and teacher-student ratios; employment resources, programs, agencies, newsletters and books for educators seeking a location change, entering into a new level, or first-time job in the education field; where to write and whom to contact for new grants and education; online databases--what they specialize in and how to access, what the costs are and what you'll find; complete listings of textbook publishers and contact names and fax numbers; a special chapter on resources for the school library; school suppliers--who they are, where to contact them, what they provide; details of hundreds of state and federal agencies with contact names, phones and fax numbers and publications available for each agency. An entry name index as well as a subject index and a publisher index help direct the reader to sources throughout the book for complete research.

From reader reviews:

Kathy Wilson:

What do you concentrate on book? It is just for students because they are still students or the item for all people in the world, exactly what the best subject for that? Simply you can be answered for that query above. Every person has distinct personality and hobby for each other. Don't to be pressured someone or something that they don't would like do that. You must know how great and also important the book 1997 The Encyclopedia of Education Information. All type of book is it possible to see on many resources. You can look for the internet solutions or other social media.

David McGowan:

In this 21st centuries, people become competitive in each and every way. By being competitive today, people have do something to make all of them survives, being in the middle of the actual crowded place and notice simply by surrounding. One thing that often many people have underestimated this for a while is reading. Sure, by reading a book your ability to survive increase then having chance to remain than other is high. To suit your needs who want to start reading the book, we give you this particular 1997 The Encyclopedia of Education Information book as starter and daily reading e-book. Why, because this book is more than just a book.

Wm Schroeder:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a expertise or any news even a huge concern. What people must be consider if those information which is within the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you find the unstable resource then you obtain it as your main information you will have huge disadvantage for you. All those possibilities will not happen in you if you take 1997 The Encyclopedia of Education Information as your daily resource information.

Katie Grossi:

Your reading 6th sense will not betray anyone, why because this 1997 The Encyclopedia of Education Information guide written by well-known writer whose to say well how to make book that may be understand by anyone who read the book. Written within good manner for you, still dripping wet every ideas and creating skill only for eliminate your hunger then you still hesitation 1997 The Encyclopedia of Education Information as good book not merely by the cover but also from the content. This is one guide that can break don't assess book by its deal with, so do you still needing yet another sixth sense to pick this specific!? Oh come on your reading through sixth sense already said so why you have to listening to a different sixth sense.
