"Haven Prime: Book One "

The world is gone. All that s left are the monsters.

The creatures attacked Haven VII with no warning. An AI named Kyrios, a nearly omnipotent being, should have protected the city during the Night of the Swarm.

Except It didn t.

No one knows why It failed, or why It saved eight specific people: the Captain, the Seer, the Sentry, the Messenger, the Engineer, the Alchemist, the Medic, and the Stewardess. They have no idea of the meaning behind the titles they ve been given, why they were selected and brought together, or what Kyrios expects from them. When they awake from stasis, they find their city in ruins and everyone long dead. They re alone or so they think. But then the creatures start pouring out from underground, looking for them. They don t stand a chance in a fight, and with limited supplies, they can t run forever. All they know is that the creatures aren t their only enemies, and there s only one place they can turn. Kyrios beckons them toward Its Portal, but can It be trusted? In Its isolated shrine in the desert, they might find the answers they need if they can survive long enough to reach it. "
