HEPATITIS: A-to-E, Autoimmune, & Drug-induced: Symptoms, Transmissions, Diagnosis, Treatments, Diet, Preventions, Research James Lee Anderson

“Although, your health condition may impact your everyday life, do not let it define who you are.” Most people have heard of hepatitis, but few understand the harm posed by this potentially deadly collection of diseases. This text covers what you need to know about the disease. Inside, you’ll be able to know: (1) between acute and chronic hepatitis, (2) the different types of hepatitis, from A to E, (3) symptoms, causes and transmissions, diagnosis, treatments, and preventions, (4) about drug-induced hepatitis, (5) about autoimmune hepatitis, (6) how liver biopsy is done, (7) alternative treatments, (8) how to manage the pain in hepatitis, (9) how to manage mental health, (10) how to manage together diabetes and hepatitis, (11) what the diet and nutrition is for people with hepatitis, (12) how to cope with hepatitis, (13) and the on-going research. Thank you and may you have a very good understanding of hepatitis and the different types and aspects of the disease. Take care and as always...be well!
