The International Business Environment Leslie Hamilton, Philip Webster

The International Business Environment, Second Edition, prepares students for the realities of global twenty-first-century business. Building on the success of the previous edition, it employs a wide range of examples from BRIC and CIVETS economies and offers chapters on CSR, the ecological environment, and corporate social responsibility. Authors Leslie Hamilton and Philip Webster discuss the process of globalization, the global economy, and the impact of that economy on international business organizations. Using a PESTLE framework, they analyze the economic, political, legal, financial, technological, socio-cultural, and ecological environments, clearly outlining the factors that affect the everyday business of organizations.

Adopting a truly international approach, this full-color, visually engaging text features a wealth of examples and case studies. Each chapter begins and ends with a one-page case study, and fifty additional mini-cases address such compelling issues as civil unrest in North Africa, the Japanese earthquake and tsunami, Wikileaks, and Google in China. Organizations including BP, Dell, Domino's Pizza, Apple, and Procter & Gamble are featured throughout the book. A Companion Website offers numerous resources for students and instructors.
