Beyond the Farthest Suns (The Complete Short Fiction of Greg Bear) Greg Bear
7 remarkable stories, newly revised for this collection, showcase the award-winning talents of one of the 21st century's finest writers of speculative fiction

Whether penning science fiction (*Moving Mars, Queen of Angels, War Dogs*), alternate history (the Mongoliad series with Neal Stephenson), or fantasy (*Sleepside, The Infinity Concerto*), Greg Bear tells stories that engage the reader's intellect while gripping the imagination. His short fiction is no exception. *Beyond the Farthest Suns* takes readers to the far end of the universe and the borders of scientific understanding. The volume includes:

- “The Way of All Ghosts,” set in the bestselling universe of *Eon* and *Eternity*;
- “The Venging,” which takes a group of desperate fugitives fleeing alien dominance down into the awesome gateway of a black hole;
- “The Fall of the House of Escher,” in which a world-famous illusionist is brought back from the dead for a terrifying command performance;
- “Hardfought,” the critically acclaimed Nebula Award-winning story showcasing a far future in which a legendary female pilot and her alien captor are forced into a tapestry of echoing lives where they struggle to communicate and find the deepest secrets of their history.

These works, along with 3 additional entries, stunningly illustrate how Bear interweaves the rationality of science with remarkable characters whose thoughts and emotions reflect our own.
