*Prof Paul A Watters PhD*

## **Linux 4.6 System Administration for Beginners: Ubuntu, Debian, Fedora, CentOS, SUSE & Slackware Explained** Prof Paul A Watters PhD

This book is intended to be a basic introduction to Linux system administration. It is not intended to be an encyclopedic reference; it is designed to introduce the Linux system to you, and equip you with basic skills to manage and run your own systems. You will learn to use Linux 4.6, the latest version of the Linux operating system. The goal is to get you used to working in a Linux-like way rather than teaching you every possible command or technique.
