Women and Empowerment: Illustrations from the Third World (Women's Studies at York Series)

The authors in this volume address the questions 'What is empowerment?' Is it power over resources? Is it the ability to create 'effective demand'? Is it about the ability to make choices? Is it about access to resources and how they are controlled, politically, economically, by NGOs, by political parties, by the state? Do political parties facilitate or do they channel energies away from empowerment? They evaluate how in different circumstances different political agents have been seen as provider of resources.
