**CCNA 640-802 Network Simulator (2nd Edition) Wendell Odom**

**The most effective router and switch simulator for hands-on CCNA skills enhancement.**

Includes 300 labs, 8 different lab topologies, and more than 3,000 hands-on tasks.

CCNA 640-802 Network Simulator, Second Edition helps you develop and improve hands-on configuration and troubleshooting skills without the investment in expensive lab hardware. This state-of-the-art, interactive simulation software enables you to practice your networking skills with more than 300 structured labs designed to help you learn by doing, the most effective method of learning. The labs are divided into four different types: 183 skill builder labs which help you practice short, focused configuration tasks, 47 complex configuration scenarios, which present realistic multi-layered configuration tasks, 20 challenging troubleshooting scenarios, which provide you with an opportunity to test your problem identification and resolution skills, and 50 subnetting exercises, which help you improve the speed and accuracy of your subnetting calculations.

Experience realistic network device response as you work through each of the labs, which include detailed instructions, topology diagrams, hints, and full answers. Unlike other simulators on the market, the lab scenarios included in the CCNA 640-802 Network Simulator are far more complex, challenging you to learn how to perform realistic network configuration and troubleshooting tasks.

This unique network simulation software helps you master the hands-on skills needed to succeed on the CCNA exam. Topics covered include

- Router and switch navigation and administration
- LAN switching
- IP addressing
- Subnetting
- Routing
- WANs
- VLANs and trunking
- IP routing protocols
- Scaling IP
- Troubleshooting

Minimum System Requirements:

- 500 MHz processor
- 512 MB RAM (1 GB recommended)
- 500 MB hard drive space
- 32-bit true color monitor (1024x768 resolution)
- Microsoft Windows XP Professional with SP3, Microsoft Vista, Windows 7, or Mac OS X Version 10.4.11, 10.5, 10.6, or 10.7
- Java Runtime Environment (JRE) version 1.5.0
- Adobe Acrobat Reader 8.0
- Connection to the Internet during installation for access code validation

### From reader reviews:

#### David Simpson:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each book has different aim or goal; it means that e-book has different type. Some people feel enjoy to spend their time and energy to read a book. They can be reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like studying a book? Sometime, man feel need book when they found difficult problem or perhaps exercise. Well, probably you should have this CCNA 640-802 Network Simulator (2nd Edition).

#### Jeremy Richards:

What do you regarding book? It is not important to you? Or just adding material when you require something to explain what your own problem? How about your free time? Or are you busy person? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have time? What did you do? All people has many questions above. They must answer that question due to the fact just their can do in which. It said that about book. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this specific CCNA 640-802 Network Simulator (2nd Edition) to read.

#### Marisa Carney:

Your reading sixth sense will not betray an individual, why because this CCNA 640-802 Network Simulator (2nd Edition) reserve written by well-known writer we are excited for well how to make book which might be understand by anyone who also read the book. Written inside good manner for you, leaking every ideas and writing skill only for eliminate your personal hunger then you still doubt CCNA 640-802 Network Simulator (2nd Edition) as good book but not only by the cover but also from the content. This is one reserve that can break don't determine book by its deal with, so do you still needing another sixth sense to pick that!? Oh come on your reading through sixth sense already alerted you so why you have to listening to a different sixth sense.

#### Leonel Burton:

That guide can make you to feel relax. This specific book CCNA 640-802 Network Simulator (2nd Edition) was colorful and of course has pictures on there. As we know that book CCNA 640-802 Network Simulator (2nd Edition) has many kinds or type. Start from kids until young adults. For example Naruto or Detective Conan you can read and feel that you are the character on there. Therefore not at all of book are generally make you bored, any it makes you feel happy, fun and rest. Try to choose the best book for you and try to like reading which.
