New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43)

New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43)

This timely collection of expository papers highlights progress and new directions in Hopf algebras. Arising from the MSRI workshop on Hopf Algebras in October 1999, some papers consider Hopf versions of classical topics, such as the Brauer group, while others are closer to recent work in quantum groups. In particular, there are articles on recent progress in classifying finite-dimensional Hopf algebras, both in the semisimple case and in the pointed case. The volume also includes an updated version of Mitsuhiro Takeuchi's article "A short course on quantum matrices", now a standard reference in spite of its relative lack of availability.

From reader reviews:

Robert Prather:

Book is actually written, printed, or illustrated for everything. You can recognize everything you want by a e-book. Book has a different type. We all know that that book is important matter to bring us around the world. Alongside that you can your reading skill was fluently. A e-book New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) will make you to be smarter. You can feel a lot more confidence if you can know about anything. But some of you think that open or reading the book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you looking for best book or acceptable book with you?

Krystal Wilson:

Now a day folks who Living in the era wherever everything reachable by match the internet and the resources inside it can be true or not call for people to be aware of each info they get. How individuals to be smart in obtaining any information nowadays? Of course the answer is reading a book. Reading a book can help men and women out of this uncertainty Information particularly this New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) book because book offers you rich details and knowledge. Of course the info in this book hundred % guarantees there is no doubt in it you probably know this.

Marjorie Thompson:

Hey guys, do you really wants to finds a new book to read? May be the book with the title New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) suitable to you? Often the book was written by famous writer in this era. The book untitled New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) is a single of several books in which everyone read now. This kind of book was inspired many people in the world. When you read this publication you will enter the new shape that you ever know prior to. The author explained their plan in the simple way, so all of people can easily to understand the core of this guide. This book will give you a lots of information about this world now. So you can see the represented of the world on this book.

Brian Hill:

That e-book can make you to feel relax. That book New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) was bright colored and of course has pictures on there. As we know that book New Directions in Hopf Algebras (Mathematical Sciences Research Institute Publications, Vol. 43) has many kinds or type. Start from kids until youngsters. For example Naruto or Private investigator Conan you can read and feel that you are the character on there. Therefore , not at all of book usually are make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading in which.
