**The Future Royal Family: William, Kate and the Modern Royals** Robert Jobson, Arthur Edwards  
**Fully revised and updated, this new edition about the Duke and Duchess of Cambridge includes the period from Prince George's birth to the arrival of William and Kate's second child**

They have been dubbed "the modern royals" by the world's media, and have not only won the hearts and the loyalty of millions of people around the world, but have helped to re-establish the British royal family as an important, and largely admired, presence in national and international affairs. In short, Their Royal Highnesses the Duke and Duchess of Cambridge—also known simply as "William and Kate"—have done as much as anyone to bring the royal family into the 21st century, and to keep it firmly in the national consciousness. The birth of Prince George, their first child, on July 22, 2013, fueled such a worldwide media and public frenzy that it became the most talked-about event of the year. The birth of a future heir, combined with the historic possibility of the first baby to be born not only to a Queen-in-waiting, but to the son of the much mourned Diana, Princess of Wales, accounted for much of the excitement, but that was stoked by a natural affection for the young couple. From the beginning, the world had watched with bated breath as the charming Prince William and his future bride overcame the struggles of university, rumors, and a brief break-up before finally reconciling and becoming engaged. Their ceremonial wedding in 2011—watched by an incredible estimated 2 billion people worldwide—was a defining moment, not only in their young lives, but also for the perception of the monarchy. The Duke and Duchess of Cambridge have come to embody the spirit and hope of their nation, and their deserved popularity has had a profound effect upon the future of the royal family. As well as a history of the young couple's romantic relationship, this in-depth book chronicles the next chapters in this modern fairy tale, backed by beautiful photographs, fascinating facts, and expert analysis. Now completely revised and updated to cover the period from the birth of Prince George to the arrival of the new prince or princess in April 2015, the book is both an intriguing insight into modern royalty, and an unrivaled souvenir.

#### **Kimberly Casselman:**

As a university student exactly feel bored to be able to reading. If their teacher requested them to go to the library in order to make summary for some guide, they are complained. Just very little students that has reading's heart or real their passion. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring and also can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this age, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this The Future Royal Family: William, Kate and the Modern Royals can make you feel more interested to read.
