Written by teachers and therapists who are highly experienced in structured teaching methodology, "Tasks Galore" offers a compilation of 250 tasks shown in color photographs.

This revised edition has been recreated in a lighter, brighter format. Most of the concepts that were presented in the original edition are the same in this revised version but different materials have been used for the featured tasks.

Each photograph shows how manipulative, sensory, and visual elements can be incorporated into educational tasks in order to capture a student's attention and make learning fun. With tasks from a variety of preschool and elementary curriculum areas-- fine motor skills, readiness, language arts, math, reasoning, and play-- this "encyclopedia" will provide numerous ideas to spark the creativity of parents, teachers, and therapists as they individualize a program for their students.
