Using LEDs, LCDs and GLCDs in Microcontroller Projects

Dogan Ibrahim

Using LEDs, LCDs and GLCDs in Microcontroller Projects Dogan Ibrahim

Describing the use of displays in microcontroller based projects, the author makes extensive use of real-world, tested projects. The complete details of each project are given, including the full circuit diagram and source code. The author explains how to program microcontrollers (in C language) with LED, LCD and GLCD displays; and gives a brief theory about the operation, advantages and disadvantages of each type of display.

Key features:

- Covers topics such as: displaying text on LCDs, scrolling text on LCDs, displaying graphics on GLCDs, simple GLCD based games, environmental monitoring using GLCDs (e.g. temperature displays)
- Uses C programming throughout the book – the basic principles of programming using C language and introductory information about PIC microcontroller architecture will also be provided
- Includes the highly popular PIC series of microcontrollers using the medium range PIC18 family of microcontrollers in the book.
- Provides a detailed explanation of Visual GLCD and Visual TFT with examples.
- Companion website hosting program listings and data sheets
- Contains the extensive use of visual aids for designing LED, LCD and GLCD displays to help readers to understand the details of programming the displays: screen-shots, tables, illustrations, and figures, as well as end of chapter exercises

Using LEDs, LCDs, and GLCDs in Microcontroller Projects is an application oriented book providing a number of design projects making it practical and accessible for electrical & electronic engineering and computer engineering senior undergraduates and postgraduates. Practising engineers designing microcontroller based devices with LED, LCD or GLCD displays will also find the book of great use.

From reader reviews:

Bobbie Burke:

This Using LEDs, LCDs and GLCDs in Microcontroller Projects book is simply not ordinary book, you have it then the world is in your hands. The benefit you will get by reading this book is information inside this guide incredible fresh, you will get data which is getting deeper you actually read a lot of information you will get. This specific Using LEDs, LCDs and GLCDs in Microcontroller Projects without we recognize teach the one who reading through it become critical in thinking and analyzing. Don't be worry Using LEDs, LCDs and GLCDs in Microcontroller Projects can bring when you are and not make your bag space or bookshelves' become full because you can have it within your lovely laptop even telephone. This Using LEDs, LCDs and GLCDs in Microcontroller Projects having very good arrangement in word in addition to layout, so you will not truly feel uninterested in reading.

Lorraine Stark:

This Using LEDs, LCDs and GLCDs in Microcontroller Projects are reliable for you who want to be a successful person, why. The reason why of this Using LEDs, LCDs and GLCDs in Microcontroller Projects can be one of many great books you must have is actually giving you more than just simple studying food but feed an individual with information that possibly will shock your earlier knowledge. This book is handy, you can bring it just about everywhere and whenever your conditions at e-book and printed types. Beside that this Using LEDs, LCDs and GLCDs in Microcontroller Projects giving you an enormous of experience like rich vocabulary, giving you test of critical thinking that we understand it useful in your day pastime. So , let's have it appreciate reading.

Bradley Bishop:

It is possible to spend your free time to study this book this reserve. This Using LEDs, LCDs and GLCDs in Microcontroller Projects is simple to create you can read it in the park, in the beach, train and also soon. If you did not have got much space to bring often the printed book, you can buy typically the e-book. It is make you simpler to read it. You can save the actual book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

Faye Pearson:

Reserve is one of source of knowledge. We can add our understanding from it. Not only for students but additionally native or citizen require book to know the update information of year to be able to year. As we know those ebooks have many advantages. Beside we all add our knowledge, can also bring us to around the world. With the book Using LEDs, LCDs and GLCDs in Microcontroller Projects we can have more advantage. Don't you to definitely be creative people? To get creative person must choose to read a book. Just choose the best book that appropriate with your aim. Don't end up being doubt to change your life by this book Using LEDs, LCDs and GLCDs in Microcontroller Projects. You can more inviting than now.
