John, a hard working middle aged man who has gained notoriety and respect in his community. A man whom others depend on for help and advice. A man who was taught and teaches his son the value of honesty, trust, and being a law abiding citizen.

Using wisdom along with his skills and abilities he takes advantage of every opportunity that comes his way. He finds himself in a most undesirable position when he allows others to participate in what he has established. When his son returns home from college to help his dad he has an unexpected and awakening encounter with a blind man that helps him realize his mind must transition to another level.

The Vision, a work of urban fiction, narrates a story of what happens when an individual is motivated and determined to make a positive difference in life. It shows how forces and events move in ways to help accomplish the things that motivated them to take action. It communicates how we all have a purpose in life, how discovering and fulfilling that purpose benefits the world and everyone in it.
