The Conservative Party: From Thatcher to Cameron Tim Bale

The Conservatives are back, and back with a bang ? two election wins in a row and, providing they can hold things together, in a pretty good position to win another. But many questions about their recent past, present, and future still remain. Just why did the world?s oldest and most successful political party dump Margaret Thatcher only to commit electoral suicide under John Major? And what stopped the Tories getting their act together until David Cameron came along? Did Cameron change his party as much as he sometimes liked to claim, or did his leadership, both in opposition and in government, involve more compromise - and more Conservatism ? than we realize? Finally, what does the result of the EU referendum mean for the Party in years to come?

The answers, as this accessible and gripping book shows, are as intriguing and provocative as the questions. Based on in-depth research and interviews with the key players, Tim Bale explains how and why the Tories lost power in 1997 ? and how and why they have eventually been able to rediscover their winning ways, even if internal tensions and external challenges mean they still can?t take anything for granted. Crucial, he suggests, are the people, the power structures, the ideas, and the very different interests of those involved. This second edition of *The Conservative Party: From Thatcher to Cameron* is a must-read for anyone wanting to understand what makes the Tories tick.
