Designed with the durability of a passport, The Child's Medical Record Book fits neatly into a woman's purse or man's coat pocket. The book has been reviewed by American pediatricians and nurses so you can be assured the material is complete and up-to-date. Your child's good health and proper treatment is the immediate goal, yet the history of his or her illnesses, and that of the family, may well be the key to unsolved mysteries in future years. And with the mobility of today's society, and the trend away from lifelong relationships with a single family doctor, the parent's responsibility for keeping this information together has increased. Here you have a way to do just that, in one slim volume.
