Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) Keith Devlin

Keith Devlin. You know him. You've read his columns in MAA Online, you've heard him on the radio, and you've seen his popular mathematics books. In between all those activities and his own research, he's been hard at work revising Sets, Functions and Logic, his standard-setting text that has smoothed the road to pure mathematics for legions of undergraduate students.

Now in its third edition, Devlin has fully reworked the book to reflect a new generation. The narrative is more lively and less textbook-like. Remarks and asides link the topics presented to the real world of students' experience. The chapter on complex numbers and the discussion of formal symbolic logic are gone in favor of more exercises, and a new introductory chapter on the nature of mathematics--one that motivates readers and sets the stage for the challenges that lie ahead.

Students crossing the bridge from calculus to higher mathematics need and deserve all the help they can get. Sets, Functions, and Logic, Third Edition is an affordable little book that all of your transition-course students not only can afford, but will actually read...and enjoy...and learn from.

About the Author

Dr. Keith Devlin is Executive Director of Stanford University's Center for the Study of Language and Information and a Consulting Professor of Mathematics at Stanford. He has written 23 books, one interactive book on CD-ROM, and over 70 published research articles. He is a Fellow of the American Association for the Advancement of Science, a World Economic Forum Fellow, and a former member of the Mathematical Sciences Education Board of the National Academy of Sciences,.

Dr. Devlin is also one of the world's leading popularizers of mathematics. Known as "The Math Guy" on NPR's Weekend Edition, he is a frequent contributor to other local and national radio and TV shows in the US and Britain, writes a monthly column for the Web journal MAA Online, and regularly writes on mathematics and computers for the British newspaper The Guardian.

From reader reviews:

Tiffany Hassell:

As people who live in typically the modest era should be update about what going on or information even knowledge to make them keep up with the era that is certainly always change and make progress. Some of you maybe will probably update themselves by reading books. It is a good choice to suit your needs but the problems coming to an individual is you don't know which you should start with. This Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) is our recommendation so you keep up with the world. Why, because this book serves what you want and wish in this era.

Gabriel Harris:

Do you have something that you enjoy such as book? The publication lovers usually prefer to pick book like comic, quick story and the biggest you are novel. Now, why not trying Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) that give your entertainment preference will be satisfied through reading this book. Reading routine all over the world can be said as the opportunity for people to know world considerably better then how they react towards the world. It can't be stated constantly that reading behavior only for the geeky man but for all of you who wants to become success person. So , for every you who want to start studying as your good habit, you may pick Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) become your own starter.

Ella Hodge:

In this period globalization it is important to someone to obtain information. The information will make professionals understand the condition of the world. The condition of the world makes the information simpler to share. You can find a lot of references to get information example: internet, classifieds, book, and soon. You can observe that now, a lot of publisher which print many kinds of book. The particular book that recommended to you is Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) this guide consist a lot of the information in the condition of this world now. This kind of book was represented how does the world has grown up. The vocabulary styles that writer use for explain it is easy to understand. Typically the writer made some study when he makes this book. Here is why this book ideal all of you.

Gregory Eubanks:

Beside this specific Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) in your phone, it can give you a way to get more close to the new knowledge or details. The information and the knowledge you will got here is fresh through the oven so don't end up being worry if you feel like an previous people live in narrow town. It is good thing to have Sets,

Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) because this book offers to you readable information. Do you sometimes have book but you would not get what it's interesting features of. Oh come on, that will not happen if you have this in your hand. The Enjoyable set up here cannot be questionable, such as treasuring beautiful island. So do you still want to miss that? Find this book and read it from at this point!
