## **High performance Price Action trading: High performance Price Action trading. Monetize your knowledge in reading the charts (High performance Price Action trading) (Volume 1)**

Dainius Silkaitis  
Take a look at the charts from the past – come back to the ages when Jessie Livermore and other masters traded. What’s the difference between it and nowadays? Nothing. The same price action moving the markets. There are the same two forces, which try to take over control at the market. The same human psychological forces working every day with the charts. Only the market price is our chief – we must listen to it and follow the price action. As a speculators, we need to use trend following strategies, but better to use other term – market price following strategies. Because about 60-70 percent of the time the price is moving in non-trending environment, only 30 percent of time we see strong trends. As a trader you can’t be stubborn or arrogant, there is no place for your individual ego. As Jessie Livermore said: „Speculation is nothing more than anticipating coming movements.” In order to anticipate correctly, one must have a definite basis for that anticipation. At this book I will show you my personal breakthroughs in trading Price Action. I have tried a lot of systems since I have found the power of the Price Action trading. For now I am listening to the market every single day and doing results from trading. If someone would offer me that information at the beginning of my trading carrier, I think that my way to trading success would be much more easier. At this book you will find the different look at the market and understand what professional traders were seeing at the market that you couldn’t see. Standard technical analysis methods won’t make you money. You can’t just do what everyone is doing. You need to be smarter than the crowd. Every time you try to execute the order at the market, you must ask yourself some questions, also see the perspective from bullish and bearish side. Why professionals traded here? Why You couldn’t see the signal at the same place? At this book I will show you how to read the „tape” of the market bar by bar, candle by candle. I suppose that if you understand me correctly, your trading will be better and better every day. That’s my real motivation, because I believe that every people deserve to live better. Good habits are the prequel to happiness. Enjoy my Price Action trading ideas and become consistently profitable trader!
