Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization)

Lorenz T. Biegler

Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization)

Lorenz T. Biegler

Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization) Lorenz T. Biegler
This book addresses modern nonlinear programming (NLP) concepts and algorithms, especially as they apply to challenging applications in chemical process engineering. The author provides a firm grounding in fundamental NLP properties and algorithms, and relates them to real-world problem classes in process optimization, thus making the material understandable and useful to chemical engineers and experts in mathematical optimization.

Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes shows readers which NLP methods are best suited for specific applications, how large-scale problems should be formulated and what features of these problems should be emphasized, and how existing NLP methods can be extended to exploit specific structures of large-scale optimization models.

Audience: The book is intended for chemical engineers interested in using NLP algorithms for specific applications, experts in mathematical optimization who want to understand process engineering problems and develop better approaches to solving them, and researchers from both fields interested in developing better methods and problem formulations for challenging engineering problems.

Contents: Preface; Chapter 1: Introduction to Process Optimization; Chapter 2: Concepts of Unconstrained Optimization; Chapter 3: Newton-Type Methods for Unconstrained Optimization; Chapter 4: Concepts of Constrained Optimization; Chapter 5: Newton Methods for Equality Constrained Optimization; Chapter 6: Numerical Algorithms for Constrained Optimization; Chapter 7: Steady State Process Optimization; Chapter 8: Introduction to Dynamic Process Optimization; Chapter 9: Dynamic Optimization Methods with Embedded DAE Solvers; Chapter 10: Simultaneous Methods for Dynamic Optimization; Chapter 11: Process Optimization with Complementarity Constraints; Bibliography; Index

---

From reader reviews:

Anne Larsen:

Have you spare time for a day? What do you do when you have considerably more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent all their spare time to take a walk, shopping, or went to the particular Mall. How about open or read a book allowed Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization)? Maybe it is to become best activity for you. You recognize beside you can spend your time with the favorite's book, you can smarter than before. Do you agree with it is opinion or you have some other opinion?

Errol Sawyer:

Spent a free time and energy to be fun activity to do! A lot of people spent their free time with their family, or their friends. Usually they accomplishing activity like watching television, gonna beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Do you wish to something different to fill your own free time/ holiday? Could possibly be reading a book could be option to fill your free of charge time/ holiday. The first thing that you ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the e-book untitled Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization) can be excellent book to read. May be it is usually best activity to you.

Hester Crutchfield:

Playing with family in a very park, coming to see the sea world or hanging out with buddies is thing that usually you may have done when you have spare time, and then why you don't try matter that really opposite from that. 1 activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization), you may enjoy both. It is good combination right, you still wish to miss it? What kind of hangout type is it? Oh can occur its mind hangout guys. What? Still don't understand it, oh come on its called reading friends.

Alvaro Holloway:

This Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization) is brand-new way for you who has attention to look for some information since it relief your hunger details. Getting deeper you in it getting knowledge more you know otherwise you who still having little digest in reading this Nonlinear Programming: Concepts, Algorithms, and Applications to Chemical Processes (MPS-SIAM Series on Optimization) can be the light food for you personally because the information inside this particular book is easy to get simply by anyone. These books produce itself in the form which can be reachable by anyone, yep I mean in the e-book type. People who think that in book form

make them feel sleepy even dizzy this reserve is the answer. So there is no in reading a book especially this one. You can find what you are looking for. It should be here for an individual. So , don't miss it! Just read this e-book sort for your better life and also knowledge.
